A total reduction of CZK 3,600,072 on personnel costs and CZK 1,440,028.80 on a lump sum, a total of CZK 5,040,100.80 was reduced. The reason for the reduction of the above items is the overall inefficiency and the overestimation of the budget.

Another condition for the implementation of the project is the removal of KA 12. KA 12 will not be implemented due to the non-connection of this activity with other project activities.

In connection with the above condition, the Selection Committee requires a reduction of the total indicator of 100,000 by 100 supported persons, the adjustment of the sub-indicators is left to the applicant.

Modification of the Selection Committee condition (reduction of the target value of the total indicator 100,000) within the Minutes of the Selection Committee: Reduction of the indicator 100,00 by only 36 persons, for the following reasons:
KA 12, together with KA 10 and KA 11, falls under the supported activity No. 4 according to the Call Manual. This activity corresponds to the indicator 140,000, for which the applicant states a capacity of 140 people in the subsidy application. However, the application (pp. 27–30) shows that a total of 460 people will be supported under this indicator, namely:

KA 10: 240 people (approx. 14% of the target group),
KA 11: 80 people (approx. 2% of the target group),
KA 12: 140 unique people (approx. 4% of the target group).

The total target group of the project (indicator 100,000) is 900 people.
With regard to these facts, we propose to reduce the indicator 100,000 by only 4%, which corresponds to the share of the target group planned as part of the cancelled KA 12 activity, i.e. by 36 people.

The reason for not recommending the project for funding is stated in line 1 of Part IV of this Minutes (Conclusions from the Consideration of Applications). For the other lines, the reason for the non-recommendation for funding was the fact that these projects were not discussed by the selection committee due to the point gained from the substantive evaluation of the projects; Only projects that achieved a higher score in the substantive evaluation were included in the discussion.
